Tips for successful ion exchange chromatography

Join Marianne Carlsson for tips on ion exchange chromatography (IEX).

Learn how to:

- Optimize the resolution/purity of your target protein
- Maximize protein recovery
- Reduce hands-on time by optimizing your system's configuration
- Select the right tools to boost your results and efficiency
- The Webinar will include a live question & answer (Q&A) session.

If you are not able to join the live session, we still encourage you to register. Registering will give you access to the on-demand version and presentation file after the event.

Significant improvements in a protein purification workflow can be achieved with small changes and proactive choices.

Speaker

Marianne Carlsson

Protein purification specialist
